# Contents

NUMBER 1, JANUARY 1982

1 *T. Low:* The combined application of topical fluoride and fissure sealant—results after 2 years
7 *R. Buchner:* Induced growth of the mandibular condyle in the rat
23 *J. P. Standlee, A. A. Caputo and J. P. Holcomb:* The Dentatus screw: comparative stress analysis with other endodontic dowel designs
35 *G. Engström, H. Fredriksson and L. Wictorin:* Absorption of gas in dental gold alloys during melting
45 *J. D. Buxbaum, F. J. Parente, W. O. Ramsey and L. M. Staling:* A comparison of centric relation with maximum intercuspation based on quantitative electromyography
53 *E. Meir, I. Gedalia, P. Smith and I. Mayer:* Analysis for establishing chronological age of bone
55 *C. H. Lloyd and R. V. Ianetta:* The fracture toughness of dental composites. I. The development of strength and fracture toughness
67 *J. L. Lui and T. Low:* The surface finish of the new microfill restorative materials. A scanning electron microscope study
83 *N. Takahashi:* Thermal conductive analysis of restored teeth by finite element method
89 Book reviews

NUMBER 2, MARCH 1982

95 *T. Magnusson:* Changes in recurrent headache and mandibular dysfunction after treatment with new complete dentures
107 *P. Lambrechts and G. Vanherle:* The use of glazing materials for finishing dental composite resin surfaces
119 *T. Hamada, H. Kotani, Y. Kawazoe and S. Yamada:* Effect of occlusal splints on the EMG activity of masseter and temporal muscles in bruxism with clinical symptoms
125 *R. A. Moss, D. Hammer, H. E. Adams, J. O. Jenkins, K. Thompson and J. Haber:* A more efficient biofeedback procedure for the treatment of nocturnal bruxism
133 *C. H. Lloyd:* The fracture toughness of dental composites. II. The environmental and temperature dependence of the stress intensification factor ($K_{IC}$)
139 *G. D. Stafford, T. T. Lewis and R. Huggett:* Fatigue testing of denture base polymers

155 *N. Duthie and R. Yemm:* Muscles involved in voluntary mandibular retrusion in man
161 *M. M. Negm, D. R. Beech and A. A. Grant:* An evaluation of mechanical and adhesive properties of polycarboxylate and glass ionomer cements
169 *P. Lambrechts and G. Vanherle:* Observation and comparison of polished composite surfaces with the aid of SEM and profilometer. I. Following polishing procedures

NUMBER 3, MAY 1982

183 *B. Ingervall and G. E. Carlsson:* Masticatory muscle activity before and after elimination of balancing side occlusal interference
193 *C. H. Turner:* The utilization of roots to carry post-retained crowns
203 *P. Lambrechts and G. Vanherle:* Observation and comparison of polished composite surfaces with the aid of SEM and profilometer. II. Following tooth cleaning procedures
217 *T. Maruyama, S. Miyauchi and E. Umekoji:* Analysis of the mandibular relationship of TMJ dysfunction patients using the Mandibular Kinesiograph
225 *G. S. T. The:* A procedure to achieve controlled pulp exposure: an explorative experiment
231 *G. Vougiouklakis, D. C. Smith and S. Lipton:* Evaluation of the bonding of cervical restorative materials
253 *T. Jemt and B. Hedegård:* The relative movements of the chin and the mandible during chewing
259 *D. J. Neill and J. K. L. Glaysher:* Identifying the denture space

NUMBER 4, JULY 1982

279 *J. E. Mejias and N. R. Mehta:* Subjective and objective evaluation of bruxing patients undergoing short-term splint therapy
291 *T. L. P. Watts and E. C. Combe:* Rheological aspects of non-eugenol periodontal dressing materials
301 *E. Ohm and J. Silness:* The size of the Balkwill angle and the height of the Bonwill triangle
307 *J. A. Gamon and S. M. Wright:* Perception of vertical dimension
317 *T. Jemt and S. Karlsson:* Computer-analysed movements in three dimensions recorded by light-emitting diodes
327 *M. Friedman and Z. Hirschfeld:* EDTA enhancement of strontium uptake by intact human enamel
335 *S. Weinstein, E. F. Harris and S. Y. Archer:* Lip morphology and area changes associated with surgical correction of mandibular prognathism
355 *P. A. Adriaens, J. De Boever and F. Vande Velde:* Comparison of intra-oral long-cone paralleling radiographic surveys and orthopantomographs with special reference to the bone height
367 *C. N. Raptis, J. M. Powers, P. L. Fan and R. Yu:* Staining of composite resins by cigarette smoke

NUMBER 5 SEPTEMBER 1982

373 *P. Lundqvist and H. Nilson:* A clinical re-examination of patients treated with pinledge-crowns
389 *R. Grajower, W. T. Wozniak and J. M. Lindsay:* Optical properties of composite resins
401 *W. M. Murphy, R. Huggett and R. W. Handley:* A laboratory and clinical study of Trevalon® denture base material
413 *P. M. H. Dummer and K. A. Harrison: In vitro* plaque formation on commonly used dental materials
419 *C. Riise and A. Sheikholeslam:* The influence of experimental interfering occlusal contacts on the postural activity of the anterior temporal and masseter muscles in young adults
427 *C. H. Turner:* A retrospective study of the fit of jacket crowns placed around gold posts and cores, and the associated gingival health
435 *C. H. Lloyd, I. W. M. Jeffrey and M. J. P. Mannion:* The strength of lining material under constraint
445 *S-E. Widmalm and S. G. Ericsson:* Maximal bite force with centric and eccentric load
451 *M. S. Saxby:* Juvenile periodontitis: an historical review

NUMBER 6 NOVEMBER 1982

469 *C. Riise:* A clinical study of the number of occlusal tooth contacts in the intercuspal position at light and hard pressure in adults
479 *S-E. Widmalm:* Long latency components of the jaw jerk and blink reflex in man
487 *P. J. Cox, T. L. Al-Khateeb, P. S. Rothwell and A. J. Duxbury:* The measurement of masseteric silent periods after experimental tooth grinding
493 *K. Inoue and I. Hayashi:* Residual monomer (Bis-GMA) of composite resins
499 *P. G. F. C. M. Battistuzzi, S. Eschen and P. G. M. Peer:* Contacts in maximal occlusion
509 *T. Österberg and B. Steen:* Relationship between dental state and dietary intake in 70-year-old males and females in Göteborg, Sweden: a population study
523 *J. S. Turpin-Mair, H. R. Rawls and L. V. Christensen:* An *in vitro* study of caries prevention, cavity adaptation, homogeneity and microleakage of a new fluoride-releasing resin
531 *T. Jemt and B. Hedegård:* Reproducibility of chewing rhythm and of mandibular displacements during chewing
539 *G. S. T. The, P. J. van Mullen and A. M. Plasschaert:* Prevention of microleakage into experimental cavities in teeth: an *in vitro* study
545 Index to Volume 9
